

TECHNICAL DATA SHEET

UV-THINNER

Gerko's UV Thinner is a thinner specially formulated to achieve high viscosity reductions, it promotes better flow and prevents blisters. Balanced evaporation ensures a perfect base and topcoat.

PHYSICAL PROPERTIES

CODE	DESCRIPTION	COLOUR	PIECES PER BOX	BOXES PER PALLET
UVT10	UV Thinner 1L	Colourless	6	40

COMPOSITION

Ketone based solvents

PRECAUTIONARY MEASURES

Use at room temperature

TREATMENT

For primers polymerizing with UV rays. Depending on the required viscosity, thin 5 to 10%.
